

First Aid Training Subsidy

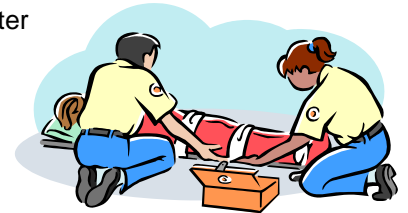

The Jersey Child Care Trust (JCCT) has made a sum of £1,000 per year available to registered or accredited childcare providers to assist them in completing their First Aid training.

A subsidy of £15 is now available on a first come first served basis to practitioners. Once the training has been completed, please complete and return this letter along with:

- proof of payment (ie a copy of the invoice / receipt), and a
- copy of the certificate

and we will raise a cheque in the name of the practitioner/setting (dependant on who paid for the training).

Should you prefer to use this amount as credit against future CPD training courses, we are happy to accommodate this. Please indicate your preference below.

The JCCT will not be involved in organising the training or booking a place on a training course.

Before booking your place with St John Ambulance, please contact the Jersey Child Care Trust to request our special discount code, and you will qualify for a 10% discount off their basic cost. On receipt of this form, we will then provide the extra £15 subsidy.
