

Working with children
for children

We are delighted to invite you to our fifth evening in our expert Knowledge Makes Change seminar series will take place on 1st March, focussing on SEND and with an introduction from the Parent Carer Forum. [Brian Lamb](#) will be leading the seminar, talking about why parental engagement is crucial to ensure that services are shaped to meet needs and how parental involvement at school can enhance progress and ensure better outcomes for children.

The [Parent Carer Forum](#) is an independent group that has been developed with and for parents and carers who have children and young people with special needs. The group aims to use parents' knowledge, expertise and experience to help plan and improve the services that are used by children and young people with special needs in Jersey. The Knowledge Makes Change seminar is a free event open to everyone engaged with young children and their families.

Register your place today on [Eventbrite](#) and find out more with our [flyer](#).
